No Time For Doll Rags.

From what is learned in political circles it would seem that the opposition to Hon. Ben Johnson for Governor has been created and is kept alive more by the efforts of Ex-Gov. Beckham than by any one else, and that this opposition comes as the result of personal envy on the part of Beckham and not for any feeling on the part of the people that some one else than Johnson should be the Democratic nominee. In fact, it is generally agreed that Kentucky has no better equipped man for his high office and it is conceded on all sides that the Democratic party cannot find within its ranks one more capable or more fortunate situated for making a successful fight against the Republicans. The opposition to Johnson comes, not from any belief that he would fail of making a good Governor or that he would prove a loser at the election, but from a source traceable almost directly in every case to an attempt on the part of Ex-Gov. Beckham to create opposition to his candidacy.

Nor, can Mr. Beckham give a good reason—no satisfactory one—to either the Democrats or the people—for this opposition. He can not give any reason that would satisfy a loyal Kentuckian hunting an able Chief Executive or that would appeal to any Democrat seeking a nominee that could put Kentucky back in the Democratic ranks.

Beckham has no reason; he has an irritating prod that keeps him in the fight against Johnson and that is all. This prod is merely the boyish envy that grows from the fact that he and Johnson were both Nelson county boys, and he dislikes to see this other Nelson county boy ride the political waves so successfully. Beckham forgot that he himself has been honored by his county and by his State, having gone from Representative to United States Senator, the latter office having been won but taken from him by the Courier-Journal gang, not by Johnson or Johnson's friends. Beckham was out-gauged in that Senatorial contest and he deserved and received sympathy, but Beckham has no right to transform that sympathy for his own mistreatment into prejudice against some one else who had no part or parcel in the Senatorial defeat. And that is exactly what Beckham is doing, unless he is misquoted or his acts misunderstood.

This is a serious matter with Kentuckians and Democrats. Kentuckians want an active, able man for Governor. Democrats want a candidate at the head of the ticket who can pull the "cork" through, and they are not willing to permit these important considerations to be sidetracked by the childish whims of any one man.

The Herald has been for Crepps Beckham for everything he ever reached up after. From the time that he made that midnight ride from Bardonia to the State capital—a good thing—until the Courier-Journal, and not Ben Johnson, beat him out of the justly earned United States Senatorship—a bad thing—The Herald has hoped and prayed that Crepps Beckham would win his political fights. We were for him because we believed he was a good man and the day may come when we will be for him for Senator again—and for the same good reason. And our LaRue county people have stood by Beckham to a man, have worked for him and applauded his actions. We have all done our share to help him, not only to gain political offices, but we have helped him to gain what is known as political prestige—in other words, placed him where he could tie four heads together and make them six times as stout as one and use them for his own needs. As we have in the past, in some ways, but we were never for everything that Beckham was for nor opposed to everything that Beckham was opposed to. We are for Johnson now for Governor and we see no reason why all of Beckham's friends over the State should do so as we are going to—ignore Beckham's childish attempt to

Those Pes Of Boyhood

How delicious was the diet of boyhood. No pie nor ever taste of food, what's changed? The pie? No! It's you! You've lost the strong healthy stomach, the vigorous liver, the active kidneys, the regular bowels of boyhood. Your digestion is poor and you blame the food. What's needed? A complete toning up by Electric Bitters of all organs of digestion—Stomach, Liver, Kidneys, Bowels—Try them. They'll restore your boyhood appetite and appreciation of food and fairly saturate your body with new health, strength and vigor. 50c at Haydon & Robertson.

Lightning Strikes Aeroplane.

Paris, July 20.—While he was making a cross-country flight to-day, Aviator Ehrmann's aeroplane was struck by lightning and fell back to the ground. The aviator escaped uninjured, which is regarded almost miraculous.

There has never been a more startling aerial exhibition than that which Ehrmann unwillingly afforded, and those who witnessed it could hardly believe their eyes when the aviator emerged from the smog framework none the worse for his experience. He was sailing along at a moderate height when he got in the path of a sky bolt. Instantly the aeroplane was enveloped in flames, its canvas wings shriveled up, and clinging to the skeleton of his craft, Ehrmann came down with a thud.

Place the Ban on Women Stenographers.

Washington, July 20.—Women stenographers apparently are no longer wanted in the government service. This announcement was made today at the Civil Service Commission in an effort to put a stop to a steadily increasing flood of letters from women throughout the country, who seek information about an examination for stenographers to be held next Tuesday in all the State and Territories. This examination is for the purpose of recruiting only men stenographers and typists, the demand for whom the Civil Service Commission has been unable to meet. Practically all the various departments of the government are seeking to replace women stenographers with men on the ground that the latter are more amenable to discipline.

How Authors Wrote.

Alexander Pope, who was the literary pontiff of his time, though best when in bed. When ever a thought came to him he would jot it down on a scrap of paper. His servant often found bedclothes and floor covered with white his certain aphorisms which have now become hackneyed quotations.

Victor Hugo wrote "Les Misérables" standing up, an attitude which Hawthorne also assumed when he wrote many of his romances.

BOY DROWNS

While Bathing in Waters of Little Beech Fork, near Litley.

George Allen Wright, a colored boy about 17 years old, was drowned in the Little Beech Fork near Litley on last Sunday. There was a large gathering of colored people at the church at Litley for their annual basket meeting. About one-half mile below VanArsdale's mill is a deep hole of water at a point where in earlier days was located a mill dam, which was used to make power to run a falling mill. The hole while short and narrow is somewhat deep. At about eleven o'clock about six young boys went to this point for the purpose of bathing. They had been in the water some time and some of the boys who were swimmers swam across the deep portion of the pool. Wright who was a novice in the art attempted to follow and with difficulty succeeded in crossing. Attempting to again perform the same feat, his companions tried to dissuade him from the attempt but, with the remark that he would again cross over if he drowned, the boy plunged in and was soon in water beyond his depth, and immediately began to weaken. Realizing his peril he began to call for help but it seemed his companions were two frightened to render him any assistance, some brush was pushed toward him but he was unable to grasp it and sank beneath the surface. The boys ran and called some older persons, and James Best succeeded in flinging the body and bringing ashore. Dr. Hopper was called, but as it was some time before he arrived, all efforts at resuscitation were fruitless.

Coroner W. E. Crum arrived during the afternoon and held an inquest. The jury returned a verdict finding that Wright came to his death by accidental drowning. Wright was a son of George Wright, a respected colored man who lives near Fenwick, and was a trustworthy colored boy.

Narrow Escape of Young Girl From Drowning.

Miss Graham, a young girl, daughter of the late Jimmie Graham, of Woodlawn, made a narrow escape from drowning in the creek or branch of the Beech Fork at Mand on Saturday last. In a boggy on her way to the Mill Miss Graham had crossed the branch, and on reaching the river, finding the ford impassable she returned down again to the branch when the back waters rushed down in such force and volume as to sweep the young girl from the barge, which was over-turned and carried down stream a complete wreck. The harness fortunately gave way and the horse freed from the buggy swam to shore without sustaining injury. Miss Graham by grasping the roots of a tree managed with much difficulty to reach the bank in safety.—Bardonia Standard.

Native of Marion County.

Judge E. W. Knott, of Kirkwood, Mo., who was born in this county and for many years made his home here, died Saturday at the home of his daughter in Galveston, Texas, where he had been spending several weeks for the benefit of his health. He was 78 years of age, and for many years prior to his death was one of the honored citizens of Kirkwood. The interment took place at Kirkwood Tuesday morning. Judge Knott was the only surviving brother of Gov. J. Proctor Knott, of this county, another brother, Mr. Sam Knott, having died at Memphis, Mo., two weeks ago at the age of 84 years.—Lebanon Enterprise.

LEBANON LOCALS.

From The Falcon.

Mr. J. B. Thompson has sold his farm of 160 acres three-fourths of a mile north of New Market to his two sons Messrs. George and Thomas Thompson. Possession is given this week.

On Monday there was born to the wife of Mr. Nathan Busby, Jr., of Philadelphia, a daughter, Elizabeth Melroy Busby. Prior to her marriage Mrs. Busby was Miss Rebecca McElroy, of this city.

Edie Keough, Chick Weathers, Marshall Brown and Will Cave escaped from the city work yard Tuesday morning. The back seats were open, while rock was being hauled in, and when Station house keeper Wilsons back was turned, they made their getaway. They were each working out a fine of \$20.

For some months Mr. U. O. Myers, of Mitchellburg, who formerly lived as Gravel Switch has suffered from cancer of the bow. Wednesday afternoon Dr. R. C. McChord removed his left leg, hoping to stop the spread of the disease. Mr. Myers stood the operation well and the prospects seem good for his recovery.

Mr. Charles Riley died at his home on the St. Rose place about 4 miles from Lebanon, Monday after a few days' illness of typhoid fever. The funeral services were conducted by Rev. E.

Attacks Women

Near Harrodsburg.

Harrodsburg, Ky., July 23.—While digging potatoes in her garden in the western end of this county, Mrs. Albert Taylor was attacked by a stranger, who came out of the bushes with a revolver. He ordered her to give him something to eat and started to swear at her. Her husband, who was in the adjoining field, heard the disturbance, and procuring a shotgun, fired three shots at the man, who ran. Mr. Taylor, however, is certain he was wounded.

Mr. and Mrs. Taylor came into town last night, and spent the night, as Mrs. Taylor was too much unstrung to remain in the country. A posse went out this morning in search of the assailant.

Recently a strange man, carrying his arm in a sling, has been seen wandering around in the western end of the county, and several nights ago he appeared at the home of Fred Dickinson armed with a pistol. He demanded some food and got it, leaving in a hurry after eating. Several other persons have seen the man, but no effort has been made to arrest him.

Allerton is Dead

Allerton 2:00. The world famous trotting stallion, died on July 23 at the home of his owner, H. E. Hopper, Indianola, Iowa. This is one of the two trotting stallions bred by C. W. Williams, who had a theory about breeding trotters that in his case proved itself. His idea in short was to combine Mambrino Patchen with George Wilkes blood. His limited means allowed but two mares which were not thought to be desirable and were sold to him for \$800. He sent one, Gussie Wilkes, to Jay Bird because fees were low, and the result was the great and sensational Allerton who commenced to win at two years old. From the beginning his great quality was endurance. They could not wear him out. As a three year old he proved to be a great campaigner, winning over aged horses. His career as a four year old was brilliant and he quit it with a mark of 2:13. At five he lowered his record to 2:09. In 1891 he defeated the trotting champion, Nelson in 2:14, 2:15, 2:16. Allerton has over 20 standard performers to his credit, and his sons and daughters breed on.—Farmers Home Journal.

Free-For-All Fight

"Shake Rag" is the name of the negro section northeast of the mill ponds beyond Ford street and is about the toughest place in Marion county. Late Saturday night Fred Brown rapped Marshall Medley on the head with a brick, and Marshall took a couple of shots at Brown with a pistol. Because both shots went wild and because Marshall was a hot shot, Joe Phillips, who was on the spot at the Brown negro. In Police court Tuesday Phillips was held to await the action of the grand jury and Brown fined \$25 and costs.—Marion Falcon.

Itching Extremes Washed Away

It is worth 25 cents to you to stop that awful "itching itch" Surely you will spend 25 cents on your druggist's recommendation, to cool and heal and soothe that terrible itching eruption?

THE NEWS-LEADER

SPRINGFIELD, KY.

PUBLISHED EVERY THURSDAY.

AMES R. NOE JOSEPH POLIN
Editors and Publishers.

THURSDAY, JULY 28, 1910.

The Democrats of Nebraska last Tuesday wrested from William J. Bryan the leadership he has held in State politics for 14 years. They lined up along the lines of county opposition. Mr. Bryan made an impassioned appeal to it, but all to no avail, as those who opposed it stood their ground firmly.

A cable dispatch from Rome states that the American authorities have reason to believe that Joseph Wendling, the alleged murderer of Alvin Karpis, has fled to Italy, and the American Consul at Naples has requested the police to make a search for the missing janitor.

The State of Minnesota has splendid State buildings and over \$4,000,000 in the Treasury. It is probable that no taxes will be levied in the State this year. Their receipt for financing the government is a good one and could be used even in Kentucky.

Court at Willisburg.

In Squire Nimrod Hendren's court at Willisburg last Saturday the case of Mark Shewmaker, Plaintiff, vs. George Kyler, Defendant, was tried out. The Plaintiff was represented by Hon. W. C. McChord, and the Defendant by Marshall Duncan. The case was an action on a balance of \$30 due on a note executed by Defendant for a horse. The defendant alleged that the horse had been warranted to him as sound and all right when in fact it was unsound. A considerable amount of testimony was introduced and the jury returned a verdict for the Defendant.

Maccabees Hold Services.

The Willisburg Tent of the Knights of the Maccabees of the World held memorial services at Mr. Zion Sunday afternoon. Memorial addresses were delivered by Rev. Jesse Grubbs and Hon. W. F. Grigsby.

Reunion of the Clements Family

The family of Mr. Frank Clements, one of the oldest and best known of the county, were united at the old homestead on Wednesday, the 20th inst. There were fifty-nine present including Mr. and Mrs. Clements, children, grandchildren and great grandchildren, and a happier day has never been enjoyed by any one than that. The children were Mr. Geo. Clements and daughter, Mrs. Annie Pickley, Mrs. May S. Johnson, of Chicago, Ill., Mr. John Clements and little niece, Geraldine Clements, of Omaha, Nebraska, Sr. Mary Dominic Clements and Sr. Rose Gertrude Wheatley, of St. Joseph, Louisville, Mrs. Mattie Sansbury, Louisville, Mr. and Mrs. George Edson and family, Mr. and Mrs. Ed Osborne and family, Mr. and Mrs. Geo. Lee and family and Benedict Clements, of Springfield.

Next to the happiness of being united after twenty years' separation, the most enjoyable feature was the bountiful and sumptuous dinner prepared by the Kentucky children and served by the granddaughters. At about four o'clock the happy father and all present assembled on the lawn to have their pictures taken. After a day all too short they repaired to their homes, but Mr. Clements and children were reunited the next morning at old St. Rose where they attended Mass for the deceased members who lie buried in the cemetery there, viz: Mrs. Frank Clements, the mother, and Mrs. Ed Wheatley, a sister. They then had breakfast at the old home, after which they parted. A host of friends join them in their prayer that they may have many such reunions.

Litsay

Mrs. L. M. Gregory entertained at six o'clock dinner Tuesday evening. Those present were Misses Frances Martin, Logan Maule, Ellen Gregory, Mrs. Nell Thompson and Rev. H. S. Hudson, Messrs. H. M. Gregory, Frank Yankey, Henry Gregory and John Polin.

Miss Mahol Price has returned to her home, after a visit to Miss Lavonia O'Connor.

Misses Katharine and Margaret Scannell, of Louisville, Kate Medley, Della Orkies, Catherine and Della Medley spent Monday with Misses Emma and Julia Polin.

Miss Grace Sheehan has returned to her home, after a visit to friends in Nelson county.

Mrs. L. M. Gregory and Mrs. Nell Thompson visited Mrs. Evan Sales Wednesday.

Miss Frances Thompson, of Louisville, is the guest of her uncle, Mr. W. A. Thompson.

Mr. Vassarale Noe visited his grandparents, Mr. and Mrs. S. C. Vassarale Friday and Saturday.

The Valley Hill baseball team with a few recruits from Springfield came down Saturday and crossed bats with the Litsay Stars. The game was so one-sided that it was really pitiful to see the Valley Hill boys trying to bat the ball, and never touching it, and chasing the home runs of the Litsay Stars. At the end of the fifth inning the score stood 12 to 1 in favor of the Litsay Stars and Valley Hill decided to quit and go home and practice up. Walker pitched good ball for the visitors, but his support was bad. Vandyske, for the Litsay Stars, pitched as usual, but one hit being made off his delivery during the game.

On next Saturday Sharpville will be here. This should be an especially interesting game from the fact that two games have already been played with this team, the Litsay Stars having won one and lost one, and also as this is the only team that has been able to defeat the Litsay Stars this season.

Big Sale of Pine Tobacco and Stock Farms

By virtue of a decree of the Nelson Circuit Court, I will as Master Commissioner of the Nelson Circuit Court on

Monday, August 8, 1910,

at about the hour of 1 o'clock p.m.,

at the Court House in Barstow, Ky., sell to the highest bidder, what is known as the Best played lands, containing the aggregate 822 acres, on the Beech Fork River, about miles East of Wenden, 22 acres of land in Washington county and the balance in Nelson county.

A large portion of this land is good bottom land, and the other land in these tracts. There is a splendid eight room residence on the home place, good barns, and other improvements. The lands are suited to raising hogs or live stock. No better lands in Washington or Nelson counties.

The portion lying in Washington county will be sold separately. The home tract containing 222 acres will be sold in three parcels and then as a whole. The Commissioner accepting the bid yielding the most money.

Said lands will be sold on a credit of 6, 12 and 18 months; the purchaser to give bond with approved security the purchase money bearing interest from day of sale at six per cent per annum.

W. T. SPALDING,

Master Commissioner Nelson Circuit Court

The Most Delicious Bread You Ever Ate

It is now possible to secure right in this town the famous Dolly Bread baked by the Grocers' Baking Company of Louisville.

This bread, fresh from the ovens, is pushed to us by the fast express every morning.

It reaches our store almost as quickly as it reaches the grocers right in Louisville.

Don't fail to give this bread a fair trial tomorrow. Give it the taste test. Serve one loaf of this delicious bread with one loaf of any ordinary bread. Then let the folks at your table decide which is best.

The answer is always certain. They choose

Dolly Bread

For everybody likes bread made with malt and baked in steam.

This bread is not baked in the ordinary way. It is baked in steam ovens—superheated to 400 degrees—installed by the Grocers' Baking Company at a cost of thousands of dollars.

Steam is forced into these ovens under enormous pressure—the moisture is baked right into the loaf. That is why Dolly Bread tastes so good—that is why it is so easily digested.

ASSIGNEE'S SALE OF TATHAM SPRINGS

As assignee of The Tatham Springs Company I will on
THURSDAY, AUGUST 18, 1910,

About the hour of One o'clock p.m.

At the front door of the hotel of Tatham Springs, Washington county, Ky., sell at public auction all the property owned by said company, consisting of about seven acres of land on which is situated the celebrated Tatham Springs, a two-story Hotel Building, Stables, Power House, Ice House, Bowling Alley, Servants' Houses and other necessary outbuildings and bedding of all kinds. The parlors, office, dining room and kitchen are all fully equipped with all necessary furniture and fixtures for the convenience of the guests. The hotel is situated on a beautiful shaded island above high water overlooking Chapin River, which affords excellent fishing, boating and bathing. The hotel is supplied with water from the spring by a first-class water system.

This property will be sold as a whole, and for the reason that the owners cannot give the business the attention it demands to maintain as an attractive, first-class health and pleasure resort as it should and can be under proper and attentive management.

The property is situated on the Automobile line, established by the Automobile Club of Kentucky, and on the projected line from Louisville to connect with the trolley system now maintained in Central Kentucky, and is accessible by other conveyances from all points in the State.

The merits of the celebrated Tatham Water is known throughout Kentucky and in other States. The natural advantages of this place is not surpassed by any similar resort in Kentucky. Mrs. S. E. Wornall is now in charge of the hotel and will take pleasure in showing the property to any persons who may be interested in the sale.

The property will be sold for one-fourth cash, the remainder payable in one, two and three years. The purchaser will be required to execute notes for the deferred payments bearing interest from the day of sale at the rate of six per centum per annum and payable annually with good security and containing a lien on the property, and containing a clause that in default of the payment of any note or installment of interest at maturity, then all of the notes to become due. It is further desired that further time for payment than as above indicated the extension can be arranged on satisfactory terms to be agreed on.

W. E. SELECMAN, Assignee of Tatham Springs Co.

This sale will in no way interfere with the management of the Hotel this season by Mrs. S. E. Wornall.

HELPED BY HUMIDITY.

Many Machines and Products Which Require Moist Air.

There are many machines, operations and products which require special atmospheric conditions for their successful or profitable maintenance. Principal among such operations is the manufacture of textiles, perhaps the most important of all industries carried on in factories. In the favored climate of the Lancashire district of England the natural climate affords working conditions equaled in America only on occasional days in certain localities. Even in England, however, there are many days in which the atmosphere is too dry for the best work.

Since textile fibers are increased in strength and elasticity by high humidity and moderately high temperatures breakages are less frequent under proper conditions, and the output is increased. But even before the fibers reach the manufacturing plant at atmospheric humidity plays an important part. Cotton linters, for example, are more pliable and more resistant to breakage when they are in a humid atmosphere than when they are in a dry atmosphere.

Feathers and many other animal substances lose a considerable percentage of weight in drying out, so that the maintenance of average and uniform humidity in the storage rooms has a direct advantage to the owner in maintaining the value of his goods as they lie in the warehouse. Cigars and tobacco, lose flavor in dry air and regain it, to some extent, after loss of storage in proper humidified rooms. Wooden furniture and musical instruments are sometimes cracked and injured by the dry air of steam heat. All these and other similar goods are advantageously worked or stored in results in which the atmospheric humidity is artificially controlled and kept at the most desirable point.—Engineering.

A RECORD IN HITTING.

DeLahanty's Four Homers and a Single in Five Times at Bat.

The baseball expert Hugh S. Fullerton, in an article on "Battering" in the American Magazine, describes as follows the greatest hitting feat recorded—executed by Ed DeLahanty, and which it was his good fortune to witness.

"Adams Terry was pitching a coast pitcher with a wonderfully fast curve ball—and three of the home runs were made off the curve. The first time at bat DeLahanty hit the ball high over the right field fence, perhaps seventy feet from the foul line, which would be 245 feet from the plate, and the fence was thirty-five feet high. The second time he hit over the same fence, but further toward center field. The third time he drove a single over short stop, a line hit and perhaps the hardest hit of all. DeLahanty, having touched the ball with both hands. They were torn apart and the ball caromed almost to the left fielders before it struck the ground. The next home run was straight to the center field away from the clubhouse; nearly 600 feet between the clubhouse and the field. The last time he came to the bat the crowd was cheering him on. Long retired between the clubhouses, which were set at angles. DeLahanty hit a curve ball. It alighted on the roof of one clubhouse, landed to the roof of the other and rolled halfway back to the second baseman. And yet Chicago won the game 8-4."

mare, \$47.

Miss Rodman Thurman enter-
tained a large number of her
friends on last Thursday even-
ing at a moonlight party. The
new home which is one of the
most beautiful in the city looked
its best on the occasion. Re-
freshments were served late in
the evening. A band of music
was in attendance and many en-
joyed themselves with dancing
on the large veranda. The
Thurman home was thrown open
to the guests and their hospitali-
ty was enjoyed to the fullest
extent by all.

Prof. J. D. Clarke, of Fayette
county, addressed a good sized
crowd at the Court House last
Monday in the interest of the
Pool. He spoke about an hour,
and held the attention of his
hearers. He urged the farmers
to pool and stated that unless
this year's crop was pooled the
society would have to sell over
the 1910 market.

The success of County Fairs
this year over last year, makes
appearances for our own Fair en-
couraging. Last year county
fairs were in most counties not a
success, if not flat failures. Our
own Fair held its own with the
most of them, and came out
somewhat ahead. Last year it
seemed that the interest was cen-
tered in the St. Louis Fair, and as
a consequence the county fairs
went begging. This year, how-
ever, the people seem to have
awakened to the fact that it is to
their interest to maintain the
County Fair as a home enter-
prise, and consequently more in-
terest is being taken and better
stock exhibited. The present
outlook for one of the best fairs
in the history of the Washington
County Fair Association's bright
and promising.

Change in Firm.

Mr. J. W. Jarboe, who for
many years has been connected
with the Springfield Flour Mill,
has sold his interest to Messrs.
C. R. McWhorter and Henry T.
Wells, and the firm will now be
known as McWhorter & Wells.
Both men have been connected
with the business for some time
and are successful business men.
Mr. Jarboe, the retiring member,
had charge of the mill when it
was built and was a very suc-
cessful miller.

Appointed Storekeeper.

The many friends of Mr. Phil-
